Welcome to The 1st World Parliament on Spirituality - History in the making

In this 21st century of the spiritual and scientific revolution, our understanding of nature, ourselves and the universe is expanding in all directions. The social, cultural and spiritual implications of this upheaval are incalculable. At the same time, high technology-based media are also in a period of dramatic development, enabling us to widely share this newly dawning consciousness with a previously undreamt of degree of verisimilitude.

Our planetary civilization is in the later stages of becoming a wholly intercommunicating organism. Advances in visual resolution, interactivity and virtual reality make it possible to place the joystick of exploration in every hand.

To open the galaxies the atom and the cell for personal reconnaissance and the spiritual truths told thru many religious belief systems. If we could separate the believes we could have a view of the truth.

The lines between commerce, education, entertainment and every other aspect of human activity blurr to the point of vanishing. Learning is now viewed as life long pursuit. And yet, our most dazzling entertainment capabilities are reserved for material that is largely substance-free. Meanwhile, the real time unfolding of the grandeur of the universe is treated as an aside; blandly reported, if at all.

We are a team of spiritual thinkers, writers, trainers, researchers, religious gurus, swamis, engineers, entrepreneurs, architects, doctors, Educators and artists who, with a growing list of partners across society, seek to address this disconnect between each belief systems and reach the ultimate Goal of every human being who have inhabited this world from eons of time.

This platform is created to bring forth those isolated, disconnected knowledge source on a single platform and discuss and deliberate on the subject matter of WHAT IS NEXT FOR US, AS HUMANS on the planetary evolutionary process.

There is a planet wide hunger for awakening, for who we really are beyond the cultural barriers and demarcations. And an ongoing enquiry of where we might go and who we might become.

The 1st World Parliament on Spirituality is an attempt by THE WORLDUNITED FOUNDATION in partnership with many organizations across the globe to converge on a single platform in Hyderabad, India. During this 5 days event, there would be many speakers of great repute addressing this esteemed congregation. It would be a once in a life time experience of listening and participating and giving our input.

This is the call from our DIVINE to humanity to WAKE UP and prepare ourselves and support our Mother earth in its process of moving into greater consciousness shift. Begin to wake up to the possibility of you becoming a GALACTIC HUMAN BEING. Ask yourself how can I? and take up the challenge. Here is a moment in time which is awe inspiring. Never ever such an inspiring event has happened in the history of our planet.

We, invite you to link with us on a planetary level, as an individual or as a group, to create a GLOBAL WEB OF LIGHT. You can make a difference by your presence during this date. Imagine several hundreds and thousands of spiritual masters and seekers from various paths, origins and fragrances on a common platform creating a single frequency of oneness. Imagine you are one such component and you are the PART OF THIS EVENT in bringing forth the HISTORY in the making.

If you have the call from within, make the first move to get on to the web www.wpsconnect.org and send us a email with your registration. Pl visit the website for early discounts. Do not miss the opportunity, take the first step forward and confirm your seat.

Youth For Seva

Here is a growing desire among the youth in India to volunteer their time and talent for community development, but most of them are not currently involved in volunteering work. Youth for Seva (YFS) was formed in April 2007 to fill this gap so that youth with an intention to volunteer and with different time commitments can easily find meaningful opportunities to serve the community. The mission of YFS is to inspire youth to volunteer, connect them to grassroots projects, and provide ongoing support and training to the volunteers and the NGOs. YFS is privileged to have many prominent people on its advisory board who have been guiding the youth and providing support.

Reiki Healing Foundation Trust (India)

Dr. Sharma couple promote the theory of 'jaago aur bhaago' (i.e. Awaken & Move) and have thus, inspired people world over to become self-masters, instead of followers, by helping them unleash the unlimited human powers hidden within. Dr. Sharma couple teach the practicable method of becoming a Lotus i.e., to remain in the midst of the worldly affairs (Sansara) & still be detached from it. They are the real symbols of truth, auspiciousness and beauty (satyam, shivam, sundaram). With them, ends the search for Ultimate Truth & Ultimate Bliss. They transform the soul, whom they touch! They have dispelled spiritual ignorance of millions with their spiritual illumination. Dr. Sharma couple are the beacons of Light, who do not just teach Reiki. They teach Life, Truth and Enlightenment! They are the real Gurus, the contemporary Buddhas!!

WILPF

Women's International League for Peace and Freedom (WILPF). Its aims and objectives were and still are 'to bring together women of different political views and philosophical and religious backgrounds determined to study and make known the causes of war and work for a permanent peace'.

The Women's International League for Peace and Freedom is the oldest women's peace organisation in the world. It was founded in April 1915, in the Hague, the Netherlands, by some 1300 women from Europe and North America, from countries at war against each other and neutral ones, who came together in a Congress of Women to protest the killing and destruction of the war then raging in Europe.

What is Spirituality?

Spirituality and mystical charm have always drawn people from all over the world to India. As the world becomes increasingly materialistic, the quest and urgency for spirituality grows more and more. At different points in the history of our civilization numerous spiritual leaders and saints have delivered the message of peace, brotherhood and co-existence that is so very well rooted in our culture. Arts like Yoga and Ayurveda played an important role in the evolution and existence of spirituality in India. Through the ages, various Ashrams and centers of excellence came up in different parts of the world. These centers have helped in spreading the message of compassion, care and positive living.

Spirituality is the Art and Science of Going Within. Spirituality is awakening of the energy of understanding thru meditation and various methods of Sadhana advocated by many schools of spiritual thought. Spirituality differs from Religion. While Religion is mainly dominated by prayers, rituals and devotion, Spirituality is dominated by Meditation, Contemplation and Discipline. While Religion is practicing certain faith and belief system, Spirituality aims one to be one's natural self keeping aside rigid barriers of belief and soar high in the spirit consciousness.

India, its people, its infrastructure, and indeed its very soil, encourage and breed Spiritualism, allowing ancient principles of wisdom to thrive, flourish and prosper. Thus, Indian spirituality is all about showing respect to all living beings-animals trees, rocks and even water and lead a positive and healthy life. It is believed that the supreme Creator has put each one of us in this world for a purpose and that purpose is to be compassionate, caring and loving to one-another. As mentioned earlier, the great spiritual personalities and gurus have played an important role in spreading the message of love, care and the need for positive living all over the world. Come let us join and march towards the city of Hyderabad !

Why these dates ... 17-21 Dec 2012 ?

This week is the end of the famous mayan calendar and there has been so much of media and movie hype as if the world is going to an end...but, the last week of the mayan calendar has been deliberately chosen by us to mark it as a new beginning and rejoice the new spiritual energy that is building around this week.

The Host Country

INDIA, officially the Republic of India is a country in South Asia. It is the seventh-largest country by geographical area, the second-most populous country with over 1.2 billion people, and the most populous democracy in the world. Bounded by the Indian Ocean on the south, the Arabian Sea on the south-west, and the Bay of Bengal on the south-east, it shares land borders with Pakistan to the west; China, Nepal, and Bhutan to the north-east; and Burma and Bangladesh to the east. In the Indian Ocean, India is in the vicinity of Sri Lanka and the Maldives; in addition, India's Andaman and Nicobar Islands share a maritime border with Thailand and Indonesia.

Home to the ancient Indus Valley Civilization and a region of historic trade routes and vast empires, the Indian subcontinent was identified with its commercial and cultural wealth for much of its long history. Four of the world's major religions—Hinduism, Buddhism, Jainism, and Sikhism—originated here, whereas Zoroastrianism, Christianity, and Islam arrived in the 1st millennium CE and also helped shape the region's diverse culture. Gradually annexed by and brought under the administration of the British East India Company from the early 18th century and administered directly by the United Kingdom from the mid-19th century, India became an independent nation in 1947 after a struggle for independence that was marked by non-violent resistance led by Mahatma Gandhi.

Now known as the historic old city, home to the Charminar, Falaknuma Palace, Chowmallah Palace and Makkah Masjid, it lies on the southern bank of the river.

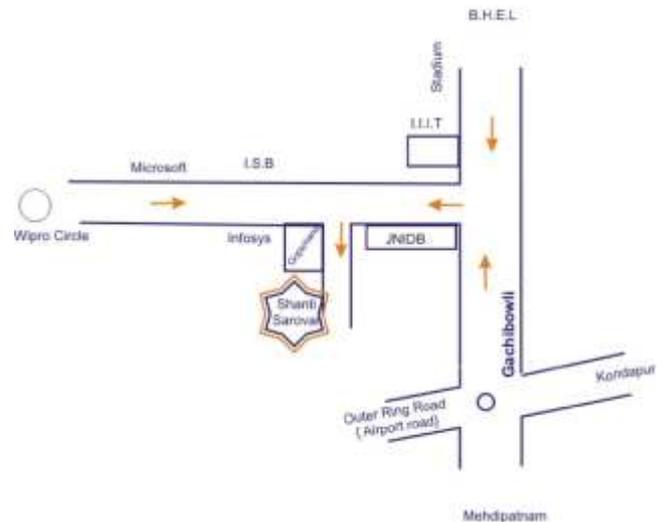

The twin cities of Hyderabad and Secunderabad, separated by the Husain Sagar (bound by the 'Tank Bund'), a man-made lake made during the time of Ibrahim Qutb Shah in 1562, come under the ambit of a single municipal unit the Greater Hyderabad Municipal Corporation. Hyderabad was once a global center of the diamond and pearls trade. The city has emerged as a major global center for the information technology (IT) industry, and biopharmaceutical industry. The Telugu film industry, known as Tollywood is also located in the city.

By Rail:

Secunderabad Railway Station, also referred as Secunderabad Junction, is a major intercity rail station and a commuter rail hub in the Hyderabad Urban Area. The station is at a distance of 30 km or 45 minutes' drive from the Global Peace Auditorium.

The station is well connected by rail to all parts of India. Over 190 trains arrive at, or depart from, the station, daily, transporting over one hundred thousand passengers to their destinations across the country.

The station is connected to almost all the parts of the twin cities (Hyderabad and Secunderabad) by the Hyderabad MMTS and Hyderabad Road Transport's buses, making it convenient for passengers to commute to and from the station.

Local Transport:

Taxis

Hotel front desks will normally be able to arrange reliable transport by taxi but they will require 15-30 mins' notice in order to do so. Taxis are willing to wait for you during your intermediate stops at reduced charges. It is simplest to inform the front desk the places you wish to visit, the total time you wish to spend and the number of persons travelling. They would then be able to book the taxi for you at a fixed rate.

Auto Rickshaws

Three-wheeled auto rickshaws (also known as "Autos") are a convenient way to travel within the city. They cost half the fare of a taxi, but are more expensive than buses. Usually autos are metered, but it is good to fix the fare before they take you for a ride. They can be found clustered together in auto
